

What You Do MATTERS

The CT DMHAS Tobacco Prevention and Enforcement Program aims to **reduce youth access** to tobacco, oral nicotine, and vapor products.

As a retailer, **YOU** play a key role in this effort by ensuring customers are **over 21** and understanding the risks of tobacco use and nicotine addiction.

Please **train your staff to verify age** before selling tobacco, oral nicotine, and vapor products. We are proud to offer helpful resources and support materials to assist you in these efforts.
