

Naloxone has a serious side effect:

IT SAVES LIVES.

- **Naloxone (or Narcan)** quickly reverses the deadly effects of a narcotic overdose.
- **It can easily be administered** by anyone with a simple autoinjector or nasal spray.
- **In Connecticut, you don't even need approval from a doctor** to administer naloxone, and you're protected from prosecution under the state's Good Samaritan laws.
- **If you know someone in danger of an opioid overdose,** talk to your physician or pharmacist about gaining access to naloxone.
